

Lindsey O.

THE CREATIVE WANDERER PRESETS

Installation Guide

How to Install your Lightroom Presets:

1. Unzip the Presets file (double click or use a program designed to unzip compressed folders).
2. Locate the Develop Presets folder in Lightroom. From Lightroom, click on Edit > Preferences > Presets and then click select "Show Lightroom Presets Folder"
3. Open up the folder named "Lightroom" and then the folder named "Develop Presets"
4. Drag the entire Unzipped Preset folder for The Creative Wanderer Presets into the Develop Preset folder.
4. Restart Lightroom.
5. You can now find your new presets under the "Develop" section of lightroom, in the left hand column.
